3rd Eye Pet Care

Pulse Electromagnetic Fields (PEMF)

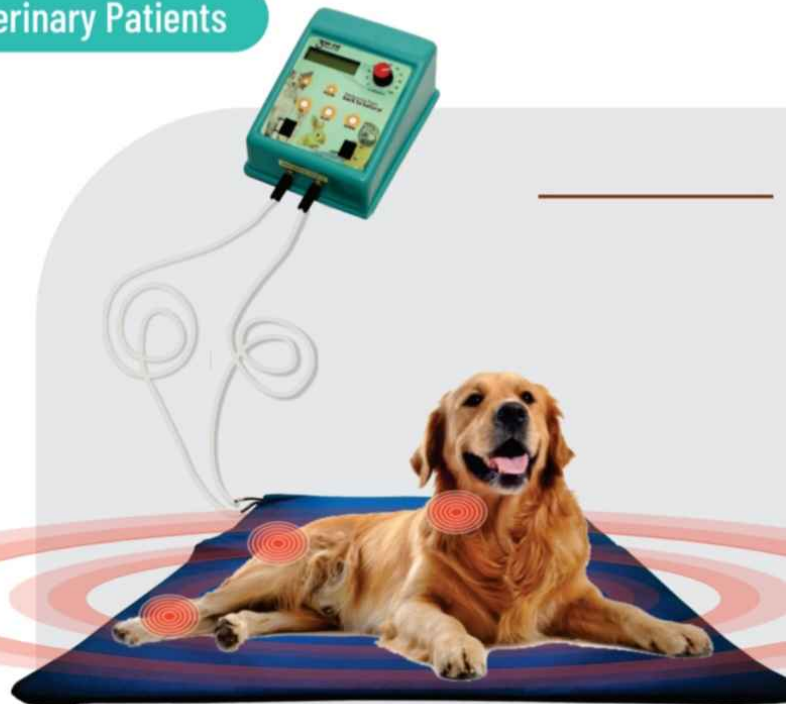

Pulsed Electro-Magnetic Field (PEMF) therapy uses technology to stimulate and exercise cells to help & resolve cellular dysfunction and support overall wellness.

Drugless wellness that heals open wounds, fractures, arthritis, thyroid, stress, relaxation and more.....

Pulse Electromagnetic Fields for Veterinary Patients

There are various different health conditions in animals that can be treated with pulsed electromagnetic fields. PEMFs are often preferable to treatment with medications or may be able to be used alongside medications. As in humans, pulse electromagnetic field therapies can be used for almost any condition because of the very basic actions of pulse electromagnetic fields on all biology. Animals may be more sensitive to these wellness, PEMFs responds much more quickly because of their accelerated metabolism as compared to humans. The conditions that are very responsive to PEMFs therapies in animals include arthritis, injuries, wounds, circulatory problems, fractures, spinal cord problems, seizure disorders, skin disorders, aging, diabetes complications, and many more.
