Flush

Intimate Wash
Effective in Piles. Disinfection
treatment

Environment Friendly Solutions

The **Ganga Basil O3** device generates ozonated water from the tap.
It takes the shortest length of time to generate ozonated water and requires the least amount of space and power.

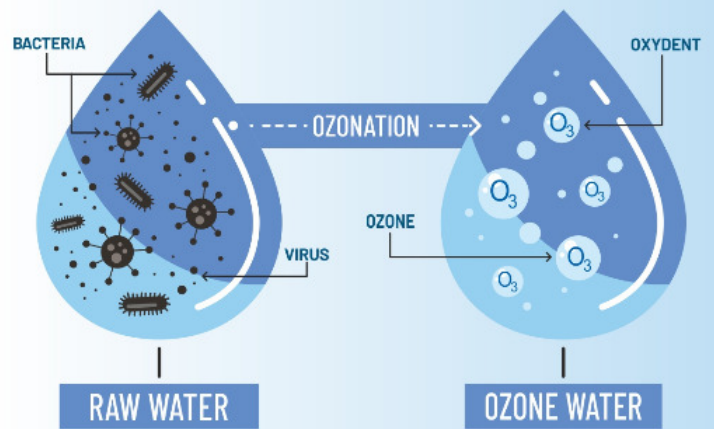

What is ozone water (O3 water)?

Ozone

Ozone is created in the atmosphere when the sunrays split oxygen molecules into single atom. These atoms combine with nearby oxygen to form a three-oxygen molecule called ozone.

Ozone Water

Ozone is a powerful oxidizing agent which dissolved in water to produce a broad-spectrum biocide that destroys all bacteria, viruses and cysts. Ozone water treatment has been used for the treatment of potable water since 1904 and having proven research for its medical use and benefits. Ozone water remains ozonated for 20 minutes then it turns into oxygenated water and drinking that improves the entire health of the body.

O3 Water Features

Powerful oxidant

No chemicals are added to the water during ozonation

Safe and environment friendly process

Improves the Quality of water

Disinfectant

Device Features

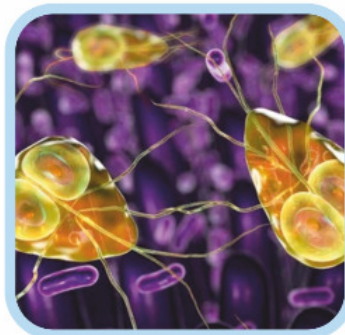

- ✔ Live ozone water on opening tap
- ✔ Efficient ozone level at a low water flow rate
- ✔ Multi Utility option
- ✔ Health Caring User friendly device
- ✔ Easy switch option for normal and automode
- ✔ No recurring & Maintenance Free Solution

What do Ozone Water treatment systems remove from water?

Kills Bacteria and viruses

Kill Parasites such as giardiasis and cryptosporidium

Reduce Turbidity

Remove Bad tastes and odours

Kills Hydrogen sulphide

Application of Ganga Basil O3

NORMAL DRINKING

Problem

Low work productivity, an unhealthy body, a viral sickness, a gastrointestinal trouble, and an uneasy abdominal condition

After Ganga Basil O3

Improves oxygenation, kills bacteria, viruses, and other water pathogens

Benefit

Improved health, disease free body

DRINKING FOR HEALTH

Problem

Cough, fever, throat infection, tonsillitis, dietary issues, mouth ulcer, internal wound

After Ganga Basil O3

Ozone sends oxygen in ill part of body to cure & heal quickly in compare to normal body Condition

Benefit

Increase digestion and healing all interior sores and ulcers

FIRST AID IN INJURIES

Problem

Bleeding, high burn, swelling, Bedsores

After Ganga Basil O3

Increase the rate of healing and disinfection for the other microorganisms

Benefits

Rapid recovery, with no chemicals and side effects

FRUIT AND VEGETABLE WASH

Problem

Microbes, Hazardous chemicals, pathogens and bacteria are always present on surface

After Ganga Basil O3

Removes all chemicals and sterilising all bacteria and viruses

Benefit

Increasing the life of vegetables and fruits by preventing premature degradation

WASHING OF MEAT

Problem

Biological hazards like bacteria, viruses, mold, prions, protozoans and parasite lying on the surface of meat

After Ganga Basil O3

Ozone water removes biological hazards and keeps meat fresh

Benefit

Germs free and highly oxygenated meat

KITCHEN CLEANING

Problem

Tough burn stains from utensils, oily platform, washing of complex kitchen accessories

After Ganga Basil O3

Clean all the microbe waste which lies on utensils, clean oily surface, removes bed odor and makes utensils and platform bacteria free

Benefit

Helps the kitchen to smell better and keeps appropriate hygiene and make utensils and kitchen accessories bacteria & virus free

CLEANING OF THE FLOOR, SURFACES AND EQUIPMENT

Problem

Presence of bacteria, virus on surface creates risk of health infection

Ganga Basil O3

Disinfect the area along with diffusing the smells, bacteria and viruses. Surface disinfection is faster than chemical disinfection

Benefit

Keeping the floor and surface disinfected and provides hygienic environment

WASHING OF CLOTHES AND APRON

Problem

Bad odour from washing machines, clothes which require the use of high-quality detergent that harms the quality of clothing after certain wash

After Ganga Basil O3

Bacteria and viruses are killed. Removes odor from clothing and improves quality of clothes

Benefit

Bacteria & viruses free clothes/apron, reduction in consumption of detergent along with improvement in quality of washing

CUTS AND WOUNDS

Problem

Continue bleeding and risk of infection, water storage in burns

After Ganga Basil O3

Heals faster. Kills viruses and bacteria to keep other sections of the body safe from getting infected.

Benefit

Reduce the risk of infection, pain reliever, rapid recovery, better post surgical condition

CLEANING OF MEDICAL INSTRUMENTS

Problem

Microorganisms on instrument and tool surfaces start a chain infection

After Ganga Basil O3

It sterilize the bacteria, microorganisms, and viruses in just simple wash

Benefit

Sterilize and disinfect the equipment. Save the cost of sterilization, instant & simple process

SKIN TREATMENT

Problem

Acne, rashes, psoriasis, itching after shaving, and intimate washing

After Ganga Basil O3

Remove microorganisms from the skin by oxidising it.

Benefit

Skin shine and skin tan enhancement. wrinkle-free skin. removes the skin's dullness and roughness. Saving on skin products.
